- Mount Carmel School, Kakkon, Hoshiarpur** *Mar 2009 – Mar 2019*
Highschool
- Percentage: 88.8/100.0

Experience

- Full Stack Developer Intern** *Remote, India*
Bharat Intern *Aug 2024 – Sept 2024*
- Developed a full-stack MERN blog application, using EJS (Embedded JavaScript) to render dynamic content on the website.
 - Built user authentication features, including sign-up and sign-in pages, using HBS (Handlebars) to create a streamlined and user-friendly interface.
 - Integrated interactive elements such as likes and comments to enhance user engagement and content interaction.
 - Optimized back-end functionality for seamless data handling, ensuring a smooth user experience.

Projects

- Blog Website** *Mern-Blog-Website* [↗](#)
- Developed a full-stack MERN blog application with user authentication, allowing sign-up and sign-in. The platform enables users to create and interact with posts through likes, comments, and other features, with real-time updates to enhance user engagement and interaction.
 - Tools used: M.E.R.N., Firebase, AWS(S3)
- YouTube Clone** *YT-clone* [↗](#)
- Developed the front-end of YouTube using HTML and CSS, focusing on replicating the core user interface
 - Tools Used: HTML5, CSS3
- Web Track Extension** *Web-Track Extension* [↗](#)
- Developed a Chrome extension to track tasks based on the current URL, enabling task creation, completion, and management, with persistent data storage.
 - Tools used: JavaScript, HTML, CSS, and Chrome Extension APIs.

Technologies

- Languages:** C++, C, HTML5, CSS3, JavaScript, Kotlin
- Technologies/Frameworks:** MongoDB, AWS(S3), Microsoft SQL Server, Firebase, VS Code, GitHub, React, Node, Android Studio
